

Snapshot of our Week

Camp YMCA at Rider

Directors' Corner

Week 4 has been a great week of building friendships and learning new skills at camp! This week our campers used their CSI skills to solve mysteries and practice coding through arts and crafts. They also went on two exciting and engaging trips.

Week 5: Cultural Week

Next week campers will learn about different cultures from around the world.

Campers will discover how people from various cultures celebrate holidays, and some of their traditions.

Pathfinders

The Pathfinders beat the heat this week with fun water games and indoor gym games. They played games like basketball and indoor pinball! They also celebrated CSI week by creating coded beaded bracelets and putting their investigative skills to the test in a brain busting scavenger hunt!

Early Dismissals and Notes for the Office

Explorers

The Explorers turned into detectives this week for our CSI theme. They had training obstacle courses, created new personas, and used coding to disguise their names. They also had a great time exploring the Liberty Science Center. Next week, they are grabbing their imaginative passports to learn about cultures around the world.

Pioneers

The pioneers had an amazing time this week. Using their detective skills, the campers explored the Please Touch Museum. They also used their skills and agility to make it out of the Super Spy obstacle course.
